NaHS

Supplier

Effective

Merichem's pulping chemicals provide an effective alternative to other make-up chemicals because:

- ▶ Our NaHS solutions are available in various concentrations to meet your specific needs.
- ▶ Our liquid NaHS solutions are easy to handle thus allowing simple control and maintenance of your sulfidity levels.

Economical

Merichem's pulping chemicals will save you money because:

- ▶ We offer competitive pricing.
- ▶ Our storage facilities are strategically located to offer you cost effective logistics.
- ▶ Our sodium carbonate solutions are an economical alternative to caustic soda, a key source of soda make-up in the production of virgin pulp.

"We work closely with each customer to make sure our products deliver the quality they've come to expect."

Efficient

Merichem's first priority is providing reliable, excellent customer service every time.

- ▶ Our extensive transportation and terminal network consisting of trucks, rail cars, ships and barges ensures safe, efficient, on-time delivery to pulp mills throughout the country.
- ▶ Merichem's state-of-the-art laboratory guarantees accurate and timely analysis when you need it the most.
- ▶ Our experienced technical staff is available to address your most pressing issues while offering innovative solutions to your most challenging pulping situations.
