

## **Product Safety Summary – ARI-120L**

This Product Safety Summary is a high-level summary intended to provide the public with an overview of product safety information on this chemical substance. It is not intended to provide emergency response, medical or treatment information, or to provide an overview of all safety and health information. This summary is not intended to replace the Safety Data Sheet. For detailed guidance on the use or regulatory status of this substance, please consult the Safety Data Sheet.

### **Chemical Identity**

ARI-120L  
CAS RN: Proprietary  
EC #: Proprietary

Also, commonly called

- Cobalt Impregnation Catalyst

### **Product Overview**

- ARI-120L is a dark blue powder catalytic reagent used in the removal of mercaptans or sweetening of petroleum fractions in the fixed bed process.
- ARI-120L is not classified as having physical or health hazards.
- The material is stable at standard temperature and pressure and is not reactive.
- For further health and safety information, please consult the SDS.

### **Physical/Chemical Properties**

- ARI-120L is a dark blue powder
- pH = Not Applicable
- Boiling point = Not Applicable
- Flash point = Not Applicable
- Vapor Pressure: Not Applicable
- Not an oxidizer and not explosive
- Slightly water soluble
- Stable (not reactive) at standard temperature and pressure

### **Health Information**

Direct contact with eyes may cause temporary irritation. May cause slight skin irritation. May cause respiratory tract irritation.

Prevention: Observe good industrial hygiene practices. Wear protective gloves. Wear eye/face protection.

Response: Wash hands after handling.

Storage: Store away from incompatible materials.

Disposal: Dispose of contents/container in accordance with local/regional/national/international regulations.

### **Environmental Information**

Ecotoxicity: The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Persistence and degradability: No data is available on the degradability of this product.

Bioaccumulative potential: No data available.

Mobility in soil: Not available.

Other adverse effects: No data available.

### **Additional Hazards**

No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this product.

### **Exposure Potential**

ARI-120L is intended as an industrial product only; no direct consumer contact is expected to occur. Industrial users should handle this material in strict accordance with safety data sheet guidelines and common industry practices.
